Foreword

Our object in issuing this catalogue is to acquaint the trade with the high quality and variety of lighting fixtures, manufactured by The Western Electric Manufacturing Company.

The Fixtures and Lighting Equipment illustrated in this catalogue represent a wide variety of selected and distinctive designs which cover practically every requirement. It is most complete in every respect, embodying the latest and most popular color schemes as well as designs.

It has been our constant aim ever since we began manufacturing lighting fixtures to produce a superior product at a moderate price—to give satisfaction and service—and to guarantee every fixture we produce against any defect in workmanship and material.
